

BAND DESCRIPTION

Boogeyman's Booze is what you get when you lock an old Southern ghost, a dented hip flask, and a handful of wandering melodies in a rehearsal room - and simply leave the door open. The three musicians stubbornly refuse to fit into any neat genre box, instead following their own unique blend of maybe folk, blues, and bluegrass? One sip tastes like campfire romance, the next like dusty crossroads, and by the third, the audience is reliably tapping along.

With energetic playfulness, acoustic finesse, and a healthy dose of humor, Boogeyman's Booze tells stories of real life, love and the death. Their songs range from delicately plucked ballads to driving rhythm numbers that feel as though the devil himself has called for a dance - only to disappear to the bar with the Boogeyman right after.

Whether on intimate stages, festival grounds, or smoky dive bars, the trio's unmistakable sound and charmingly mischievous stage presence win over audiences everywhere.

Boogeyman's Booze – music that refuses to be contained, yet carries everyone along for the ride.
